**Your included services:**

Sleep in seventh heaven
Despite the amazing view in our south-facing rooms, you have to close your eyes at some point. After all, when you open it, you can immediately see the Roseg Glacier in Val Roseg again.
Get together and dinner under the stars
After traveling through the magical landscape, there is time for the first time to arrive and sniff the mountain air. Surrounded by trees and mountains, enjoy delicacies from the fire, be it an Engadine sausage, for example, accompanied by a refreshing summer drink or a local beer - for good!
Days is also possible outside
When the sun is out (321 days a year), our 35,000 square meter hotel park is your seminar room! Of course, you can also go out of yourself or outgrow yourself indoors. The light-flooded seminar room with a view of the Roseg Glacier is the perfect setting.
Gin the mood
At the gin tastings at Hotel Saratz, gins from a range of over 100 types are served! It's no wonder that connoisseurs' hearts beat faster and even newbies get a taste for it in no time. Chef de bar and gin professional Patrick Falk skilfully guides you through the tasting with a very special selection. Cheers and enjoy tasting!
